

Pls receive attached a revised version of the DoT-Cargo-List of 21.04.'88.

The form has been changed a bit to avoid mis-interpretation of some data, now under each Master AWB are listed the House-AWB's, which also makes it easier apparent, which entries are double.

Two items I had listed with HAWB as NIL, the HAWB has been added.

The ID – number is mine, which follows the Dot – List up to item 38, the list continues with 38 A, which is mine No. 39. DoT No. 39 is mine no. 40, etc.

Entries that appear to be double are:

ID: 45 / 65
63 / 68 (there are 2 (?) or 1(?) package under this HAWB)
66 / 80
76 / 114
96 / 102
45 / 93
86 / 116

Under DoT – List item 106 (ID: 107) there are 21 packages of timers, whereas the Cargo Manifest lists 20 packages only. (MAWB **297 4014 7026** / HAWB 11522/87 – **015716**) .
